Your Comments: Your plan IS NOT a plan! Industry came in and destroyed the water and land. You now are saying that they only have to sweep around the edges!? and let mother nature take care of the rest!? It doesn't take a scientist to know that this plan is for the industry and not the land, water, and the people! As an enrolled member of the Yakama Nation I strongly voice! That you create a plan that is less then acceptable for the livelihood of the people and surrounding areas. That you inforce a better cleanup. That you EPA do the right thing and deliver a better plan. Our future depends on it!
